

Following page 16, please add an abstract, as set forth on the attached separate sheet.

IN THE ABSTRACT:

Please add an abstract as follows:

---

--ABSTRACT OF THE DISCLOSURE

a10 A multi-channel array droplet deposition apparatus has a base sheet comprising a layer of piezo-electric material poled normal thereto, an array of parallel, open-topped droplet liquid channels provided by upstanding channel separating walls formed in the layer, electrodes on channel facing surfaces of the walls, a channel closure sheet bonded to the walls, nozzles respectively communicating with the channels and a droplet liquid supply connecting with the channels, the closure sheet having an array of parallel conductive tracks thereon paced at intervals corresponding with the channel spacing and located parallel to and opposite the channels and bonds, which preferably are solder bonds, mechanically and electrically connect each track to the electrodes of the channel facing walls of the channels opposite thereto and seal the closure sheet to the channels.--

---

IN THE CLAIMS:

Claim 3, line 1, delete "or Claim 2".

Claim 6, line 1, delete "any preceding claim" and substitute --Claim 1-- therefor.

Claim 7, line 7, delete "any one of Claims 2 to 5" and substitute --Claim 2-- therefor.

Claim 11, line 1, delete "or Claim 10".
